## Cadian's Wedding

In September 2010, many of us were fortunate to attend Cady Gayles wedding. Cady has worked with us, at Topax, for more than ten years. There was a wonderful, inspirational service at the Holy Remnant Church. To see Cady and Constance being married followed by the party and assembly of loving friends and relatives was a moving experience. It was great to see many of us from Topax mingling with Cady's close ones. As Ian Jeffrey, our Production Supervisor, said on Monday morning "This is great man, we work together and we party together".

## Honouring our Long Term Team Members

### Left to Right

Richard Slowiak	15 years
Simon Trillwood	(President)
Jodi Collins	10 Years
Bruce Hill	10 Years
Jo-Lynn Hoffmann	(Vice President)
Ed Noseworthy	10 Years
Paul Tapanila	10 Years
Cady Gayle	10 Years
Ian Jeffrey (Not in Picture)	10 Years

## News from FEFPEB Conference in Belgium

October 4, 2010 Message from Simon — Greetings from Belgium. I have just attended the meeting of FEFPEB, the European Federation of Wooden Pallet and Packaging Manufacturers in Brussels Belgium. I've participated in productive meetings with officials from the European packaging organizations while representing the CWPCA at this convention. We've also attended presentations on the economy, supplies of raw materials, power generation with bio-fuel (wood) and how the use of wooden packaging benefits the environment. Patrick Moore, the co-founder of Green Peace was the keynote speaker. He gave a rousing speech about the benefits of wooden building materials and how they help the environment.

The Canals of Bruges

Wood is good and so is our export packaging!

Deborah and I have taken a few days out to visit Bruges. It's a beautiful medieval city, in Belgium, with canals and winding picturesque streets.
